

**LUX MAGNET**

LA SEPARATION MAGNETIQUE  
MAGNETIC SEPARATION

## ***TECHNICAL DATA FOR ELECTROMAGNETIC SEPARATOR***

Conveyed product :

Particle size of the conveyed product (mm):

Density of the conveyed product (g/cm<sup>3</sup>):

Flow rate on the conveyor (T/h):

Height of the product layer on the belt (mm):

Conveyor belt width (mm):

Conveyor belt speed (m/s):

Flat belt conveyor (yes / no):

Trough belt conveyor at (15° or 20° or 30° or 35° or 45°):

Minimum size of Ferrous parts to extract (mm):

Maximum size of Ferrous parts to extract (mm)

Magnetic Separator placed perpendicularly above the belt conveyor: ☐

Magnetic Separator placed longitudinally above the belt conveyor: ☐
